

LS100 LAZY SUSAN ACCUMULATOR

As part of the Form Plastics “Systems Approach” to food packaging, the LS100 Lazy Susan is designed to increase productivity through efficient handling of finished product. Place the LS100 at the end of a heat seal lidding machine and the filled containers drop onto the Lazy Susan for easy handling of finished product. Variable speed motor allows adjustment of the speed to meet operator needs. The Lazy Susan LS100 is the perfect compliment to Form Plastics heat seal lidding machines.

Benefits:

- Adjustable height provides multi-use option and flexibility in kitchen.
- 10 speed settings to accommodate a variety of production speeds - up to 60 per minute; and one or multiple employees catching
